CREARE MII BIODATI Website of the Marriage Biodata Producer I AM INTIMATELY ACQUAINTED with America's obesity mongers menus. McDonald's Filet-O-Fish, Taco Bell's Beefy 5-Layer Burrito, Frosty, Whopper, call him. Even occasional leaps of intestinal anguish do not frighten me for long: A whip of In-N-Out Burger chips can restart me at the drive-thru. Anyway, I like sugar more than salt and fat. I break into mini-addictions that the last weeks or months as various packs—Pop-Tarts, Reese's, those little generic belly snacks in Target—enter my airspace. Recently I was hooked on M&M coconut, which I could only find in a certain gas station near my house. I asked my doctor for tips on how to wean from candy. "Don't buy it," he said. He didn't realize he was talking to a man with a sweet tooth, so he overwhelmed a dentist once he said that I had a 10-year-old cavity model. Unfortunately, I'm 45. You might be shocked to know that he doesn't weigh £350. (I am 215 on a 6-foot frame.) It won't surprise you at all to learn that I've never been married. And this could be my problem. DESPITE RECENT CONTENTS that the institution of marriage is on the rocks, there is a good reason to root it: Being in a stable and long-term union can be the best way for a man to ensure personal prosperity. To begin with, a study of the United States Naval Academy linked marriage to a greater possibility of being promoted to work, while a German study confirmed that married men exceeded individual men. Then there is the advantage of the bedroom: Despite what countless sitcoms and stand-up acts would have believed you, a study by the University of Indianadiscovered that married men were more likely to report having sex in the last 3 months than men who were living together, in a relationship, or dating. Even more compelling are the health benefits of marriage. The search for the Department of Justice revealsbeing single almost quadruples the possibility of a man being victim of a violent crime. And a 2011 meta-analysis in the American Journal of Epidemiology has shown that a man who has never been hit is 32 percent more likely to die soon than a married boy. So it is not only useful to have a wife near Heimlich who bone KFC from your esophagus, but you can also be less likely to hit KFC first. "Your spouse is the person who says: "Have you ever had that pain on your controlled side?" or 'Is it not time to fill that prescription?'" says Susan Heitler, Ph.D., a clinical psychologist and the founder of poweroftwomarriage.com. "And if there's a problem in the office, you have a therapist to go home every might to talk about it." That doesn't mean every man should pinch the altar. Sometimes no medicine is better than bad medicine. True, a 2009 study in the Journal of Health and Social Behavior confirms that unmarried people have a health worse than they are currently married and then getting divorced is about the same as never taking divorced is about the same find that happiness. When I was younger and I was getting a tough break, my father would say, "If you're one in a million, there's 300 of you in the United States alone." He wanted to be reassuring; I must have taken him as a challenge. In my fourth century of dating, I survived more than 15 "serious" courtships that varied in duration from 6 months to 3 years. Some of the women were younger than me, some older. I went out with a bipolar woman, and a little that it was supposed to be. I borrowed a house with a girl, but I never lived in the house. I also attendedwho were lesbians before, after, and sometimes during our time together (although sadly, never ever ion id onussen ehc azzelovepasnoc al otagel reva opoD. icima ilgad itaritta itats omavare iuc a POG la eloverovaf elarottele otitrap nu ni itartnocni omais iC.
